

# Kyocera Data Security Kit

The safety equipment for your data.

Today's privacy and confidentiality requirements for corporate and government entities demand security as part of their overall business strategy. Protecting the data that is printed, scanned, copied, or stored – all part of the day-to-day operations and workflow every company experiences – is essential. Performing any of these vital tasks can leave a latent imprint of sensitive data on a system's hard disk drive; and, protecting the confidentiality of this data from unwanted intrusion and access is a challenge that must be met.

Protect your company's confidential documents, information, and assets with Kyocera's optional and standard Data Security Kits for select MFPs and Printers.

## Features & Specifications

Kyocera's Data Security Kit is simple to implement, easy to use, and highly reliable, providing a consistent and effective deterrent from unauthorized access and activity.

- + Optional kits for MFPs and Printers
- + 1x, 3x, or up to 7x data overwrite method<sup>1</sup>
- + Overwriting is executed automatically
- + AES 256 bit encryption
- + Password protected for administrators

Note: Installation of any Data Security Kit eliminates 'Repeat Copy' functions.

**Common Criteria Validated EAL2\*<sup>2</sup>**  
Data Security Kit (E) Software

**EAL2 Conformance & Validation\*<sup>2</sup>**  
Data Security Kit (E) has been  
Common Criteria ISO 15408 Certified.<sup>2</sup>

\* The validation for information security that these products have earned indicates that it conforms to the assurance requirements as a result of evaluations based on specific evaluation criteria and evaluation standards.

1. Availability varies by model.

2. Certification and Validation obtained for TASKalfa/CS A3 MFPs and TASKalfa/CS 508ci, 408ci and 358ci A4 MFPs.

## Highlights

- + Simple, reliable option to protect confidential information
- + Provides data overwrite technology (up to 7 times) on HD and RAM
- + The process of deletion and overwriting is executed Automatically
- + Applies 256 bit AES encryption on HD and RAM memory
- + Password protected for administrators
- + Protects company information and assets at device level
- + Common Criteria Certification (ISO 15408)<sup>2\*</sup> for the entire MFP
- + EAL2 Level Conformance and Validation<sup>2</sup>
- + U.S. DoD 5220.22-M-ECE sanitization method

## Common Criteria ISO/IEC 15408/IEEE 2600.1 certified<sup>2</sup>

IEEE 2600™ - standard for information technology:  
Hardcopy devices (HCDs) and system security

- + Describes hardcopy devices
- + Defines four typical operational environments of HCDs
- + Describes security threats for each operating environment
- + Recommends mitigation approaches for those threats
- + Specifies mandatory security objectives for compliance
- + Includes an appendix of best practices

\* The validation for information security that these products have earned indicates that it conforms to the assurance requirements as a result of evaluations based on specific evaluation criteria and evaluation standards.

2. Certification and Validation obtained for TASKalfa/CS A3 MFPs and TASKalfa/CS 508ci, 408ci and 358ci A4 MFPs.

## Data Security Kit (E) Compatible Models

\* The Data Security Kit (E) is standard on these models.
